

BLOCKMAX X1

SELF-RETRACTING WEBBING LIFELINE / 181KG RATED

LBXRZW5

This versatile SRL is designed to take on a multitude of horizontal and vertical applications. Built with a heavy duty thermoplastic & aluminium housing, the BlockMax X1 incorporates a 2.1m high strength synthetic webbing that will self lock in the event of a fall and an energy absorption system located near the scaffold-hook to rapidly reduce energy for added protection.

Setting up the BlockMax X1 is simple with the swivelling anchorage point and self-locking scaffold-hook.

CONNECTION: Scaffold hook	LENGTH: 2.1m
LIFESPAN: Up to 10 Years	RATING: 181kg

CERTIFICATION:

ANSI Z359.14 'Class A', ANSI A10.32

ANSI/ASSP Z359.14-2021: SELF-RETRACTING DEVICES SAFETY REQUIREMENTS

MODEL	SIZE	WEIGHT (G)	DIMENSIONS	MATERIAL	RATING (KG)
LBXRZW5	2.1m	2.7kg	490 x 170 x 180mm	Cast Aluminium, bronze & stainless steel	181kg

PRODUCT FEATURES

- Thermo-plastic & aluminium casing
- 2.1m synthetic webbing
- Visual impact indicator
- ANSI weight capacity is 181kg
- Self-locking scaffoldhook
- Swiveling Anchor Point
